Evans - 343-5634  
FEATURE MATERIAL

There also are 467 miles of boundary lines and markers and 15 miles of big-game control fences on State public hunting grounds and Wildlife refuges. In addition, 336 acres of trees, 1,230 acres of

shrubs, and 8,627 acres of food were planted to improve habitat for deer, turkey, rabbits, quail, pheasants, waterfowl, and other small game.

Seventy-three existing lakes were improved for fishing, as were 426 miles of stream. The combined funds also were used to build 42 fishways, weirs, and barriers for fish management purposes.

Timber stand improvement included clearing and thinning trees on 96,585 acres and the construction of 466 miles of boundary fences and 43 miles of firebreak. A total of 188 buildings was erected to aid in managing fish and wildlife areas.

State matching funds came from a wide variety of sources: 23 percent from hunting and fishing license sales, 37 percent from general or reserved funds, 20 percent from special appropriations, 3 percent from contributions by local groups, and 17 percent from other sources, including bond issues.

A breakdown of total obligation of APW funds for fish and wildlife restoration projects by participating States follows:

x x x

**Fish and Wildlife Restoration Projects  
Accelerated Public Works Allocations and Obligations**

| AREA          | ALL COSTS     | FEDERAL SHARE | AREA           | ALL COSTS       | FEDERAL SHARE   |
